

User Guide

Preface- About this guide

This document provides information about the functions and services available with the android mobile application named as Eat At UWL and how to access it.

Audience

This guide is intended for people who are studying or either employed by UWL to check the restaurants inside the university or near by one , or by any outsider in order to check any restaurant ,and can contact them.

Overview

The main purpose of Eat At UWL is to help students and staff of University of West London to choose right food in less time. The application will display what meals (food) are on special offer for the day with the prices at various eating places like The Street, Feast, Union bar etc. and will also display contact numbers, opening times and other facilities like if restaurant accepts bank card or cash or both etc.

Along with this, app will also list down restaurants near by university, which can be useful for anyone and everyone. Eat At UWL can be a benefit for all local restaurants as well , here on this app they can log in their restaurants and its details to get easy businesses.

Signing In

To launch the app, tap the application on the home screen of your android phone.

Note- It is necessary for this app to work that your android device is connected to internet. If you have never set up the Wi-Fi connections before make sure you refer to the documentation provided by your android handset.

There are two log-in, first one is for restaurant owner who puts all the details and second is for admin who manage all the details

Select 'Restaurant Owners –Click here' option on the app's main screen. Then a log in selection appears. Select you option as one of the follows-

Owner Log In

It's a profile page of restaurant

Restaurants owners can add or update their
Facilities,
Address,
Special offers,
Contact number etc.

If you have selected Owner Log In,
Then Enter the same email and password you are given to access for all admin work. And it should not be shared by anyone else then owner.

Note- Be careful while you enter your password. Check if the caps lock is off because password is Case Sensitive.

SubAdmin Log In

If you have selected SubAdmin Login, will take you to another welcome screen.

1. If you are using the app for first time, then you have to register yourself first by selecting Sign Up button on the screen. Now you to enter all the required details and select the category of your restaurant if it is located inside university or outside and then submit. Once you Submit, you have created you account, now you can login yourself anytime, and do the changes, upload pictures, write menu etc.
2. If you are a returner, you have to enter your registered email id along with the same password. And then submit it. Once you press the submit button, you now will be able to see your account and do the amendments.

UWL University

Once you select the UWL University option, app gets you to other screen where all the university restaurants are listed down. Now here you can select any university restaurant of your choice and tap it down to look at its menu options, special offers, facilities, contact details and how to reach there.

Restaurants Nearby

Once you select the Restaurants Nearby option, app gets you to other screen where all the restaurants near by registered with the app are listed down. Now here you can select any restaurant of your choice and tap it down to look at its menu options, special offers, facilities, contact details and address.

Help

Help page is soft copy of user guide, it guides you when you are stuck and directs you to successfully run the application.
